

Trace of the mean ( $\mu$ )

# Trace of the standard deviation (..)

# Trace of the variance (..)²

# Inferred distribution of fluorescence intensity of a single cluster

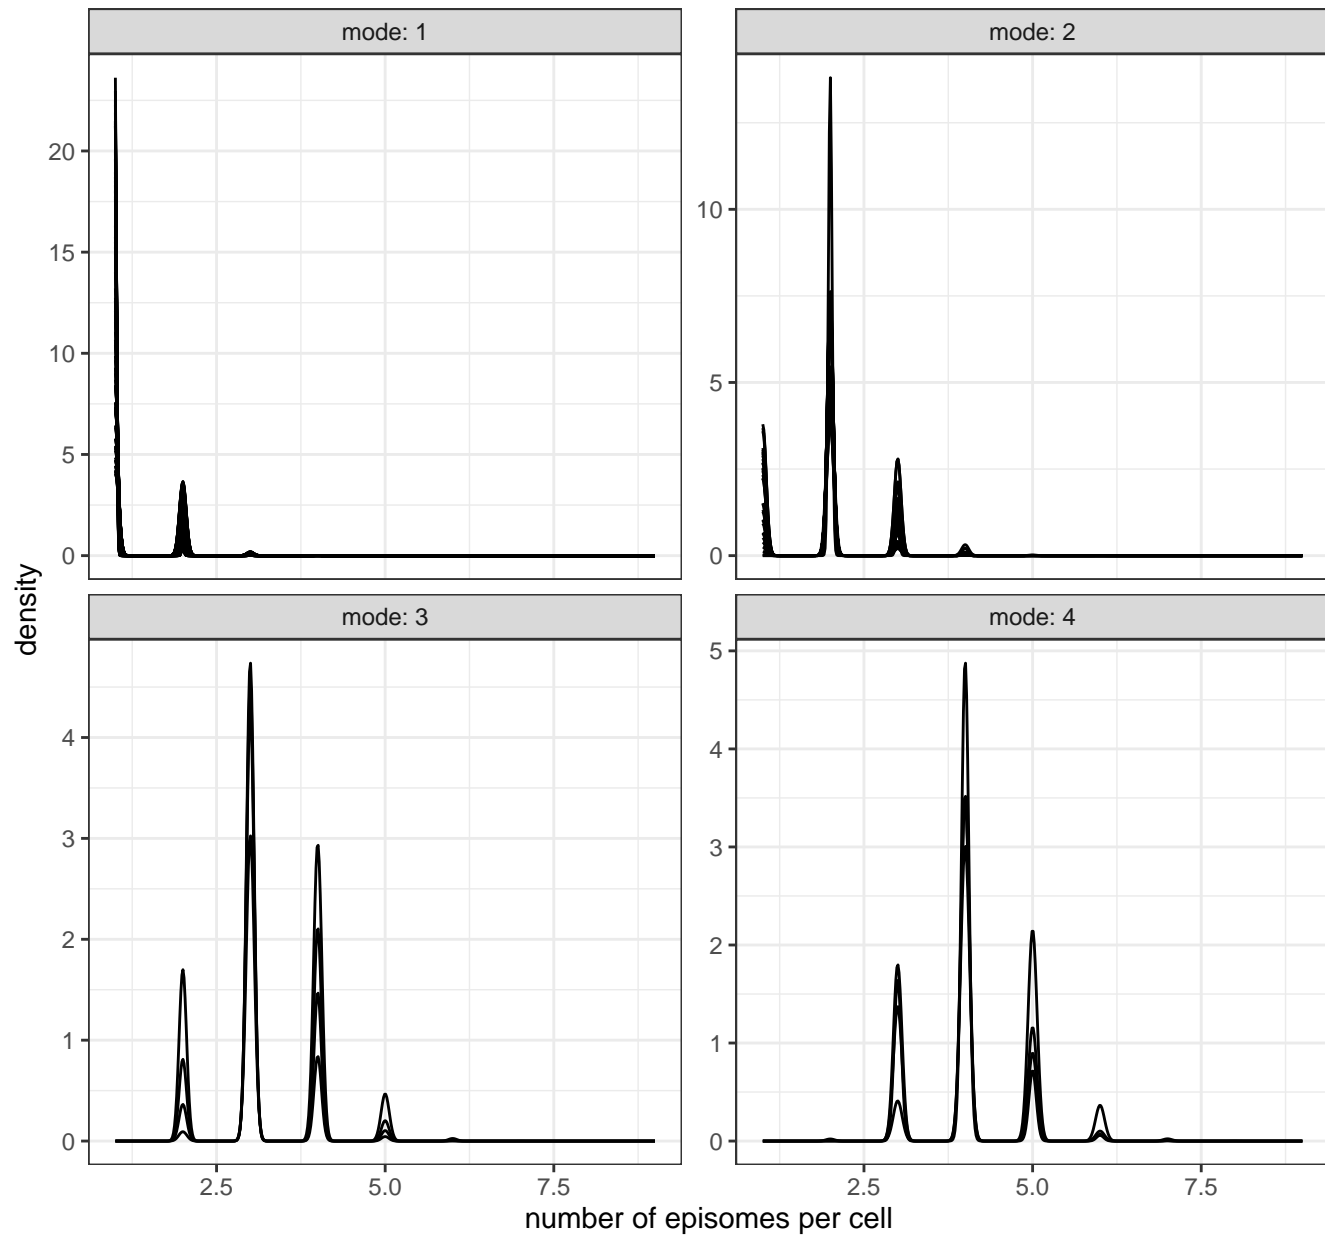

mean = 1928.42, standard deviation = 791.96

## Distribution of cluster intensities

## Posterior probabilities for number of episomes per cell

## Sampled distribution of initial number of episomes

 $X_0 \sim \text{poisson}(\text{lambda} = 1.51)$ , median = 1

Rhat

## Bulk Effective Sample Size Ratio

## Tail Effective Sample Size Ratio
